**OPTIONAL ADDITIONAL INFORMATION SUPPORTING NJD (e.g., discussion may include information reviewed to assess potential navigation or interstate commerce connections - 1 to 3 paragraphs):**

During the recent site investigation referenced above, it was determined that Pond B is surrounded by upland and does not present a significant nexus to a water of the United States. Based on the absence of a hydrological connection or adjacency to a water of the United States, the 0.57 acre pond with a wetland fringe is determined to be an isolated water of the United States. Isolated waters are only regulated under Section 404 of the Clean Water Act when the use, degradation or destruction of which could affect interstate or foreign commerce.
